MONEY SAVING SEEDS

Cinnamon Vines, Premiums and Extras.

Selected Especially for the Most Critical Buyers.

Crown, selected, and for sale by a Practical Gardener of 25 years experience—a Farmer's Son who knows what to Catalog, and what to leave out.

A. T. COOK. HYDE PARK, Dutchess Co., N. Y.

Friend: for Over 25 Years I have grown and sold SEEDS. My Catalog is filled from cover to cover with high-grade, tested seeds, sent out under a positive guarantee to please you. My Catalog is small. No flashy, lumberly pages for YOU to pay for. No extravagant prices to match the enormous expense of business done in the city. Do not forget this.

Please Remember I am not a big city seedsman whose business is all done by disinterested clerks, knowing nothing and caring nothing about gardening. I personally attend to your orders, and try honestly to serve you with the best that can be produced.

I thank You Friends one and all, for your liberal patronage and especially for your kind words. I wish I deserved them more. I know it is my earnest desire to prove myself worthy of your confidence.

With thanks and best wishes. Your Friend, A. T. COOK.

Personal Greeting.

Dear Friends—The very best thing about my seed business—what I value most—is the longest list of good friends I have made. A few of the kind letters from my customers are given in this book. I only wish there was room to print hundreds more. I don’t know of them personally, as they are all over the United States, but I am very proud of mine and helping on the success of my seed business. No words of mine can ever express my gratitude to you all for your kindness.

A Farmer’s Son who Followed the Plow.

I am a Farmer’s Son. I grew up on the farm—far from railroads, and the cities maddening crowds. My Ancestors were Quakers—all Farmers from time immemorial. I grew up among Farmers and Gardeners in fertile Dutch country. Early indeed did I learn this truth—that “men do not gather ligs of thistles,” and that high grade, CAREFULLY SELECTED seeds were absolutely essential for success.

This Kind Only

have been growing and selling for over 25 years. The seed business is my real life’s work, and I am sure I understand my business. My heart is in sympathy with honest planters everywhere. I personally attend to your orders, and read all your letters. I have personally selected everything in this catalog—for your best success and profit.

I am not a City Seedsman

whose business is done by disinterested clerks who neither know or care anything about gardening. I do not charge high prices to meet the enormous expense of business done in a city. There are thousands of bulky, flashy catalogs, and advertising is all saved for you. This for this I can give you more and better seeds, better discounts, and Friendships of such great value they always excite wonder and astonishment.

Best of Mailing Facilities.

I am situated on the banks of the beautiful Hudson River—right among the most expert Farmers and Gardeners. Each mail every way each day.

Please send me Your Photo

when you send in your order, or photos of your family, children, home, garden, stock, scenery around you, etc. You may be sure I will return the favor at once. I feel deeply interested in all my customers—I cannot tell how much. I carefully preserve all photographs—treasuring them very highly. Be sure and write your name and address on back of every one, and later you may remember again with the nicest interest. Here is a new engraving which shows how your seedsman looks at the present time. With thanks and best wishes,

A. T. COOK, Hyde Park, N. Y.

Dear Friends—One word more. While I am pleased to sell my seeds, and give you something to my worthy customers and club-agents, I desire more—that I may induce the young to shun as a deadly viper all noxious and low plants, and sown in thousands of the best. The Garden—The Home—a Temple of Health. Your Friend, A. T. COOK, Hyde Park, N. Y.

**SEEDS** are all guaranteed. I believe only in satisfaction. My cows are always guaranteed. They always do well if they try. I sent them over 4,000 of my beautiful watches last year. I am always liable for my own orders, not for your failure. Parents everywhere should encourage their children to get up clubs, for nothing could benefit them more than such practical business lessons. Give them your own ideas on this point.

MY PREMIUMS are all fully guaranteed. Many wonder how I can give such extremely valuable one-half to a club. I am very liberal. I want the members to get the benefit, and I have given it. I not give this to my friends then pay it to the members. Give your own ideas on this point.

Well friends this variety does that very thing; I was introduced until planted the seeds and tested them side by side, watching their growth almost daily, saw a finely formed root develop on every plant of this new variety, before other early kinds began to bottom. The flesh is delicate, rich, and sugary; very fine grained. It is in every way an ideal Table Beet. Every garden shop contains it. Young plants make splendid greens. Packet 10 cts. 3 for 25 cts.

Uses your Temperance and Cheer Post Cards in His Illustrated Lectures.

Dear Friend Cook, I have always looked upon the greetings of your Seed Catalog as being full of pure thoughts and practical advice. My beautiful cards surely "cap the climax."

Your efforts in producing original Post Cards, appealing to the eye as well as to the mind, is worthy of the highest commendation.

Every Campaign for Temperance should use your effective Temperance Post Cards liberally. Few things—if any would contribute so much to the welfare of the cause. I have photographed many of them on slides, for my Illustrated Lectures and thousands upon thousands have been delighted with them. Sincerely Yours,

Conrad H. Palmateer, Brooklyn, N. Y.

To My Friend—the Boys.

Please do not use tobacco. It will enslave your mind, defile your body, and waste your money. If you have begun—take my advice and stop at once, and you will be glad of the days of your life.

Be Temperate. Shun the deadly, soul-destroying saloons. Let your motto be "Touch not, Taste not, Handle not, the Intoxicating Cup." Be brave enough to be above temptation, and dare to do the right.

EARLY LARGE PURPLE EGG PLANT.

BEST IN THE WORLD.

It is with much pleasure I call the attention of my friends to this greatly improved vegetable. None should fail to grow it. It is a marked improvement over other sorts in quality, size, and great beauty.

Plants are low, stocky, branching free from spines. Very early, and one of the easiest and surest of growers; very productive—producing 5 to 10 immense fruits each. Every one—especially those who have never grown Egg Plant should try this variety. Pkt. 10c. 3 for 50c.

Extra Early Purple Top Milan Turnip.

The earliest in cultivation, adapted to spring or fall. It is fully one week earlier than other sorts and of superior quality. The bulb is flat, medium size, with a bright purple top; leaves few. The pure ivory-white flesh is of the closest quality, solid, and fine grained. Very cold and sweet. A good keeper. Of great value to all private and market gardeners. Pkt. 10c.

Boys, You Can Make Lots of Money Growing Veg. Plants.

I know you can get@ used to it myself. I have sold over $750 worth of celery plants at $1 a plant in a single season. Cabbage, Tomato and Celery plants sell best. Peppers, basal, lettuce, and beans sell well too. Asparagus plants always sell well and bring handsomely. You can soon build up a very profitable business in plants if you try it, and that will increase your free time tremendously. There is everything a good seed man should know about seeds. Plant a dozen Sikh and you will have plants from each. Get some of the very early, hardy, and good seeds and plant them, and have the fruits of your labor. You will have your son's and daughter's share in the proceeds. I am sure they will not get away from you.

Please show above to boys and girls everywhere.

The EARLIEST TOMATO IN THE WORLD.

I had the finest tomatoes from your seed ever saw. Order Monster Ignatoma weighed five pounds and onions. H. B. Wallis, Columbus, Ohio.

Mammoth Ignatoma.

All should plant the new Ignatoma Tomato. A "priceless paragon" in the tomato line. The earliest extra LARGE tomato. The most valuable large tomato ever introduced. It will wipe out fifty old sorts at a sweep. Bright red color, always smooth and solid, uniformly LARGE size. Will ripen in five days. When you have such a variety as this, Beware of cheap Tomato seed which is often the vile product of waste from Canoe Factories. My seed is carefully grown and selected. Packet 10 cts. 3 for 25 cts.

The Ignatoma Tomato is best we ever had. I did not think it could equal your description—but a trial proves it really does.

From a careful test of 40 different varieties I find the Ignatoma the best of all.

Golden Tankard Mangel-Wurtzel Beet.

This is decidedly the finest mangel in cultivation, and best for dry field use. Of very large size, clean and handsome, easily pulled as it grows two-thirds out of the ground; will bear close planting. The flesh is rich golden yellow, exceedingly nutritious. It is early, hardy, and a very heavy cropper. The Golden Tankard is a rapid grower, quickly taken the lead of all other varieties. It contains a large portion of sugar, and is much relished by milch cows and sheep. One of the best of the best without Cooks. Farmers should give root crops more attention. The wonderful results of forty years of scientific farming should be seen in the health and condition of the animals, and in the greatly increased yields and richness of the crops. Do not miss planting a good size patch. It will be dollars in your pocket.

Selected seeds in LARGE PACKETS 6 cts. each, 6 for 25 cts. 

Improved Purple Top Yellow Rutabaga.

This variety cannot be too highly recommended, and no sort will produce such handsomely formed roots, or greater yield. It is of the choicest quality, and a faithful follower of nourishment; very solid, of a beautiful orange color, with a handsome purple top. Will keep all winter and even into the following summer. It is the result of many years of careful selection.

**JAPANESE HOP,**
**NEW VARIETIES.**

A grand and charming climber, growing out 25 feet in a few weeks. Vine is very ornamental, and retains its beauty until frost.

**True Hybridized Potato Seed-Ball Seed.**

Thousands never saw a potato seed-balls. Thousands more have tried in vain to get the seed. I have the pleasure of offering a VARIETY of Rare and Select Seed—the product of numerous hybridizations between many of the best new and old varieties in cultivation. Growing NEW Sorts from this Ball seed is intensely interesting for old and young. There is the widest range of differences in color, shape, and general characteristics between the different ball-seeds, and some is more or less unlike every other. Great success has already attended the attempt to improve this valuable class, and the best varieties will yet be found which will bring a golden harvest to the fortunate growers, and prove inestimable value to the world. You may be the lucky one—and every year may make his fortune growing these. Let him try it. Directions for planting, cultivating, etc., on each pkt.

$3.00 Extra Choice Selected Seed, Mixed—Very best American and many splendid European Varieties—regular 25c., pkt.—only 10 cts. 3 for 25 cts. 12 for $1.00.

I have a host of testimonials from the best growers. Wm. M. Johnson, of Tampa, Ind., says: “The packet of Potato seed you sent me did well. Some look like the peach-blow—some are flat, like a potato, and some round, pale red, some in a hill—some like a pine—or white. I have seen 100 different kinds of potatoes. I never saw so many different colors and shapes. This is excellent.”

A gem among radishes. It has won golden opinions in all sections of the country. The illustration is perfect from nature, and will give some idea of their great beauty. It is absolutely the earliest radish in cultivation; their shape is perfectly globular, with rich, deep scarlet top; equally desirable for the market or home garden. My sales of this famous variety have been every year. No other radish can compare with it for earliness. It is very tender, and of extra quality. Packet 10 cts. 3 for 25 cts.

The Famous New Faxon Squash.

This new and distinct variety is very early, of medium size, unusually productive, and of the best possible quality. They cook dry, sweet and rich whether ripe or green—are an excellent keeper, thus supplying the table with this delicacy during these seasons—summer, fall and winter. Some Faxon's are pale yellow, while others are green, mottled, etc., in fact it is a curious admixture of many sizes, shapes and colors. This is a characteristic of the squash. The flesh is deep yellow, and of a rich country flavor. You never feel it for pies. I consider the Faxon the best of all squashes. Many who never could eat squashes before consider them delicious. Don't miss the Faxon. It cannot be praised too highly. Every customer will thank me for advising them to try it. 1 Pkt. 10 cts. 3 for 25 cts.

Let beautiful blossoms greet the eyes on every side, let their fragrance drift through the doors and windows. It will pay an hundred fold. Often weighs under ordinary cultivation 60 lbs. or more. One of the sweetest, juiciest, crisp and most solid melons ever produced. Very easy to sell from its handsome appearance and exquisite quality. It is the GREATEST MELON.

Certainly no melon can surpass it for market or table use. Mr. Dodge the veteran melon expert says, "The Monte Cristo is the best melon I ever raised—not half its good qualities have been told." From Prof. W. H. Morse, M. D., F. B. S. Sc.
Westfield, N. J., Feb. 14th, 1893.

My Dear Alway's True Cook, Your Honest Seeds came again. Every year adds to my faith in Cook's seeds. These Vegetable Peaches, Dometic Coffee, and Cinnamon Vines were more wonderful, more pleasing, and more fascinating than ever. The Cinnamon Vine was the marvellous of the city; and the Peaches and Coffee not only gave large crops but attracted the attention of the whole section. All other seeds did well. The Perfection Tomatoes, which came to my table for dinner today, deserve especial mention. In more than a quarter-century I have not experienced such beauty of fruit, the taste, or the pleasure more, and if it will do you any good you can set that Cook and his seeds are guaranteed by me.

Fraternally and Sincerely Yours,
W. H. Morse, April Chemist.

NEW DOMESTIC COFFEE SEED.

This makes a delicious, nourishing drink, to take the place of injurious coffee. It is a pure food drink that gives health and great strength to young and old. By all odds the best coffee substitute ever discovered. It has the rich, deep brown color of old Java. Thousands pronounce it as good as the best store coffee. One of the healthiest, easiest raised, and most productive of all plants. See Photo showing its amazing productive-ness. Thousands suffer untold injury from store cof-fee. Better grow the new kind at one-tenth its cost, and save your health—and money—$10 to $50, or more in the long run, as corn or beans, and does well on all soils. You can raise all your own coffee at a nominal price. Plant a liberal quantity.

Beside its great value for the Farmer, Gardener, poultry food and a GREAT egg producer. It will put money in your pocket. The Experimental Stations report that it has MORE THAN DOUBLED the feeding value of either corn or wheat.

Full directions on every packet. Prepare like other coffee. You will be delighted. My seed is genuine and very distinct; it is early, sure to ripen even in Can-ada. Beware of spurious seed, as much of it is of ferred. Buy at Headquarters— at following low prices. Large Packet 10 cts. 3 for 25c. 12 for $1.00—36 pkts. with reliable watch, or Stereoscope and 25 lovely color ed Views—(or any $3.00 Premium) all prepaid for $3.00.

I have always been a friend of stronger testing. The noted Author, T. Greiner says:—I had rather use the new domes- tic coffee than the real article. It is very pleasing to my taste, and contains true nourishment. I will use it right up to the end. K. E. Green, Mgr. Boise Irrigation Co. of Idaho writes:—I am much pleased with your Domestic Coffee. It is much superior to the average coffee that people use. It makes a drink fit for the best of the people.

It makes one of the finest coffees I have ever tasted. Margaret Clark, Noble Co. Ohio, writes:—It is the nearest the genuine coffee of anything I ever tried, and is an enormous yield. I can more than pay for it with the profit. I have sold many a visitor who supposed they were drinking real coffee.

From Prof. W. H. MORSE, M. D., F. B. S. Sc.

Mr. A. T. Cook. Dear Sir—This is to certify that your new Domestic Coffee, upon being tested in the laboratory, evinced a highly nutritious character, a rich flavor, and a pleasant taste. It is a satisfying drink, fitted to sustain life. It does not fatigue the nerves or cause an unnatural increase of blood to the brain. The new Domestic Coffee Seed should command large favor. William H. Morse, Consulting Chem- ist. The botanical and agricultural bureau, Eastfield, N. J.

ENCOURAGE GOOD HEALTH

By the free use of seasonable vegetables. Nearly every vegetable supplies something needed by the system. Celery, Radish, Spinach, Lettuce, Asparagus, Salsify, and Oranges are expeditious aid and very likable. Use Vegetables freely. They will cure nearly all the ills that flesh is heir to. E. Shuman, 111. He is perfectly all deadly drugs—and of the much advertised patent or quack medicines—nearly every one is the vilest decoction of alcohol, opium, or morphine. They will only increase your trouble. Their persistent use leads to drunkenness—or the mad house. Don't touch them. Nature alone cures. We temperance, eat, or at least breathe abounding with pure, fresh air day and night, winter and summer, and 99 cases in a hundred you will get well, and keep well.

PEACE ON EARTH, GOOD WILL TO ALL.
NEW BANANA MUSK-MELON. Crows Over 2 Feet Long.

This curious new variety originated with one of our best growers in South Jersey, and is pronounced by him the most profitable variety he has ever grown. He realized an average of forty cents each for his entire crop, as they were eagerly sought after in the Philadelphia markets on account of their great oddity of shape and appearance. They look and smell like overgrown bananas. They grow from 20 inches to 2 feet long, are very productive, with deep yellow flesh, by many preferred to any other variety on the market. Excellent table and dessert fruit. One melon will sweeten the house. A great curiosity, and sure to attract attention.

ROBERT SMITH, York Co., Maine, writes:—Your New Prolific Tree Beans outyield anything I ever saw, and I must have some more.

D. K. BEAR, Middlesex Co., Mass., writes:—The Prolific Tree Beans produced the biggest yield I ever saw; produced 8 quarts good measure. I shall plant a large piece this year.

Mammoth Salsify, or Oyster Plant.

A vegetable that is sure to be called for where it is once introduced. It is a good substitute for oysters, being very wholesome and nutritious. The roots are either boiled or mashed, and made into fritters, in which form they are delicious. For an oyster stew, cut the roots into small pieces, cook until tender, then add the other ingredients same as for oysters. The roots are perfectly hardy; may remain in the ground all winter. No garden should be without this odd vegetable. Packet 6 cts., 6 for 25 cts.

Extra Curled Cress or Peppergrass.

An appetizing relish of fresh piquant taste, often added to lettuce and other vegetables for variety. It is very quick growing, dwarf and compact; leaves finely cut and feathery. Ornamental, calcium, pungent; very refreshing. Packet 5 cts., 6 for 25 cts.

From EDWARD BEARD, Economy, Ind.: We have used thy seeds for three or four years and will say that we have never dealt with any seedsmen that sent out such good seed, so neatly packed, and in each liberal quantity.

Best Carrot in the WORLD.

One of the very best tomatoes ever introduced. It is solid, very smooth, free from ridges, large in size, ripens early, and is by far the most beautiful yel- low variety ever sent out. None better for preserving or slicing, the handsome, golden yellow slices make a beautiful contrast in a dish with red tomatoes. It has very little acid. Packet 5 cts., 6 for 25 cts.

The Banana Musk-melon is one of the best I ever raised. Your Cabbage exceeded all expectations—the finest I ever grew. The King of Mam-moth Pumpkin is certainly a wonder. All your seeds were just fine.

C. B. Spangler, Napoleon, O.
Extra Long Green Giant Cucumber.

A veritable giant among Cucumbers, and merits the highest praise. Enormously large and handsome, many specimens growing from 20 to 30 inches in length. It is a very strong grower, fruit straight, smooth, uniform, and produced in great abundance. It has few seeds, (not one-fourth as many as other sorts) quality excellent, crisp and tender. A very fine pickling variety, and unexcelled for slicing. Every one should grow this remarkable novelty. No variety will equal it for exhibition. It will be a wonder to yourself and all beholders.
Packet 10 cts. 3 for 25 cts.

"The Green Giant Cucumbers were splendid, my mabers were astonished at their great length. One measured 28 inches."
—Mrs. Emma Wilhede, Lintz, Md.

"The Long Green Giant Cucumbers were grand, and of immense size. They were the wonder of the community. 7 of 1,000 were all over 18 inches in length. Your Short Stem Drumhead Cabbage, Powells Beans and Celars are also very worthy of special praise."
—Lula Williams, Westville, I.T.

PERENNIAL—OR EVERLASTING PEAS.

The Improved Perennial Pea—to my fancy is one of the prettiest climbers that grows, and is peculiarly adapted to our climate. They live right along year after year, and bloom continuously through the long seasons from June to Sept. Their magnificent clusters of flowers are beautiful in size, and especially desirable for cutting.

They are perfectly hardy everywhere, thrive well in any soil—even if poor. Perennial Peas are deserving of popular where known. They are a very rapid grower—attaining a height of 8 to 10 feet—quickly covering a trellis or unsightly walls, stumps, etc., with a mass of vines, laden with bright blossoms. You will not regret planting a liberal lot of these everlasting climbers. I offer choiceest mixed colors.
Large Packet 10 cts. 3 for 25 cts.

New Stringless Green Pod Bush Bean.

This is an ideal string bean. Absolutely unrivalled. For home use or market no other green podded bean can equal it. It combines the chief merits of all others: extreme earliness, unusual hardness and wonderful productiveness. Pods are very handsome and finest quality—the flavor being most delicious. It is so hardy it withstands considerable frost. Pods are rich green, round, straight, 6 inches long, unsurpassed tenderness and quality. Always entirely stringless and without exception the very earliest of all beans. Packet 10 cts., 3 for 25 cts.

MONEY IN POP CORN GROWING.

Pop corn is a great money crop. Give your Boys and Girls a chance to grow a lot and make money. It will pay in many ways. If well cared for and soil is good, 100 bushels of my productive varieties will easily grow on one acre. Almost the first money I made when a boy was in growing and selling Pop Corn. My varieties being so easily grown and produce such immense crops makes them especially profitable for market. They always bring good prices. This is well worth looking after. If you have no boys or girls plant a patch yourself and report result.

S. G. CAMPBELL, Tappan, O, writes:
Mr. T. We find you are doing very nicely and the packet of Pop Corn from you , and I deduct 10 cts. per set, a bushel for $1.25 has 1.2 bu. to sell yet, and enough left for winter.

W. J. PETERSON, Ind., writes:—Last year I planted 1 acre of Pop Corn and husked 36 bushels, a yield of 144 bushels per acre. I sold it for $1.00 per bushel. The corn required no more labor than common field corn.

BROAD LEAVED SAGE.

Sage is most extensively used of all herbs for seasoning. The leaves and tender tops are used in making stuffings, sauces, etc. Sage has many medical properties. Sow early, and thin to 12 inches. A bed will last many years. This is the best kind. Have you a bed of sage? If not now is a good time to plant one.
Packet 5 cts.

Select Surehead CABBAGE.

"ALL HEAD, AND ALWAYS SURE TO HEAD."

This magnificent cabbage is a most valuable contribution to home gardens. The heads are very large, round, flattened on top, and remarkably hard and fine texture. May be planted closer than usual as it has so few outside leaves. This makes it especially profitable to grow. A Rose of Yates Co., N. Y., grew a head of this remarkable Cabbage of the astonishing weight of 44 lbs. If you want a cabbage that is practicable "all head, and always sure to head" (even under adverse conditions) you will find it in the Surehead. It is a late variety, and keeps excellently. Its extra quality renders it especially desirable for Home use, and select retail trade. Extra Selected Seed—saved from the best heads. Pkt. 10 cts. 3 for 25 cts.

THE ASPARAGUS BEET.

This delicious species (also called Sea Kale, or Swiss Chard) is grown for its leaves only. The leaves are used like spinach, but the great value of the plant is its large, fleshy, mid-rib of the leaves which are cut and cooked like asparagus, and are EXTRA FINE. As a staple for asparagus nothing could be better. Ready to use in 2 months from planting and may be used continuously all summer and fall. It is a most valuable vegetable—just a good thing to miss, and I hope every one of my customers will plant it. Pkt. 5c.

EXTRA DOUBLE CURLED PARSLEY.

Parsley is a flavoring herb of highest culinary value. This superior variety has beautiful, mossy curled and crimped leaves, light brilliant shade of green, of extra fine quality. No one planting it once would ever be without it.

The Leaves can be dried for winter use—take up a few plants and store in the cellar. Packet 10 cts.

NEW EXTRA EARLY SUGAR CORN.

The best early—and the earliest of all Sweet Corn. Very productive and sweet. Ears good size for so early a variety, being 6 to 7 inches long. Usually two ears grow on a stalk, and sometimes 3 or 4. This is the sweetest of all early corns and should be in every garden.

Especially valuable for the market gardener, to completely control the early market. Packet 1c., 3 for 25c.

"Better to pick a small bouquet,
And give to your friend this very day,
Than a bushel of roses white and red,
To put on his coffin when he is dead."

HOW A HOME GARDEN PAID $33.27.

You May be Disappointed.

"We live near a small village where two families do not raise vegetables—yet we sold during the year $37.77 worth. Our seeds cost $4.50, leaving our net profit of $33.27. Besides we estimate we used fully $100.00 worth of our own table—giving us better health, and saving much on meat, eggs, potatoes, and doctor bills.

To do this it is the good care, planned to have vegetables both earlier and later than other people, and everything offered was washed and made attractive. Others could even do as well. Our garden is the best, and most profitable part of the farm." Clara S. Everts, Miss.

In not finding in my catalogue varieties that are largely boomed by other seedsmen, if they are quitted there has been a reason for it. Is it not cheaper for you to be disappointed now than at the harvest time? All the new introductions are left out of this catalogue.

You May be Disappointed.
Giant Summer Crookneck Squash.

This new strain is even earlier than the common variety, while the
squashes grow to an extra large size— from 18 inches to two feet
and of finest quality. They command an extra price in all markets.
One grower reports $125, worth, sold from a acre. This is the best flavored
and finest of all summer squashes. Per packet 5 cts.

Strawberry Husk-Tomato.
TRUE HEADQUARTERS SEED.

EARLY WINNICSTADT CABBAGE.
A well known and very popular variety, heads large,
decidedly consol, remarkably solid and hard, even in
summer. This is a sure leader, a good shipper and
suffers less from the cabbage worm than any other
sort; valuable for both summer or winter use. Market
gardeners and all others desiring a choice strain of
this desirable cabbage should try my selected seed.

The Great Prize Pumpkin.

KING OF THE MAMMOTS.

This grand, colossal variety is without a rival; it astonishes everybody by its mammoth size and heavy weight. Indeed no other pumpkin has ever attained
such enormous weights, or been awarded as many
prizes. Think of it, a huge-grown pumpkin weighing 298 lbs. (See Cut.) Is not this the greatest of all pumpkins? In France they have been grown to still greater size, and as many of my customers have as good, rich soil—as highly productive, as any there is in France or any
where else on the face of the earth. I have no reason
why they cannot be grown much larger here. The
flesh and skin of this monstrous pumpkin is a bright
golden color, very fine grained, and of excellent quality.
Notwithstanding its enormous size, it is one of the
best ever to table pumpkins ever grown, and is a splendid
keeper. I hope all enterprising pumpkin growers
will adopt this variety. You will be sure to get a prize
at your County Fair. Full directions on every packet,
giving best methods of planting etc. to secure the lar-
gest specimens. See offer below. Extra seed saved

MO. SUPERIOR SEED is the very best I can
grown or get. None are cheaper QUALITY considered.
I do not try to compete with foreign trash, or that
grown from scallions and refuse of cabbages. I could sell
such for 2 cts. per packet—but they would be far
as a gift. With an experience of 25 years in gardening
know the value of high grade seeds. I have in the past,
do now, and always will maintain this high standard.

Cook's Melons
Am De Best.
New Winter Pineapple Muskmelon.

The Winter Pineapple differs from all other muskmelons in shape and appearance of the fruit and wonderful keeping qualities. The melons weigh from 10 to 12 lbs. each. It is a most valuable novelty. These splendid melons are on the vine like other muskmelons, but have to be picked when the pond is green. We keep them in a warm room, where they will ripen in a few days and be ready to eat.

The flesh is unusually thick, solid, and melting; a light green color and has the most delightful flavor, imaginable, being rich, spicy, and delightful, with an agreeable pineapple taste.

The Artist, (Mr. Blanch of Phila.) who has designed engravings of, and tasted nearly all the new melons introduced this season, says "Winter Pineapple is decidedly the finest flavored muskmelon I have ever eaten."

Everblowing Packet - $5.00 also an elegant pot plant.

DON'T PLANT TOBACCO.

Don't ask for Tobacco Seed. I cannot sell it. It only injures people. It debases their minds—defiles their bodies, and wastes their money. Don't help along the miserable vice. Plant something useful and you will clean.

SELECTED SEEDS IN PACKETS ONLY. I offer my high-grade, selected seeds in packets only. None in bulk. My packets are so large it would be little object. If you desire a quantity of any one variety, order 10 or 20 packets or more, which, with the discounts and premiums, will give you a better bargain than ever. I do not sell the cheap stock for coarse planters or 25 or 50 cents or more, but rather offer selected seeds especially for private planters and select gardeners who desire ONLY THE BEST.

My packets have always been large, but never before have club-agents had so easy a way to earn useful premiums, or liberal "pin-money."

They excite great admiration, and well do they deserve the honor. You will be sorry if you do not plant these easy growing flowers. They succeed everywhere. Choose Selected Seed, Pkt. 10 cts.

ADDRESS. A. T. COOK. HYDE PARK, DUTCHESS CO., N. Y.
Colorado Preserving Citron.

This is quite distinct and far superior to the ordinary citron, the seeds being a light green color. It is immensely productive: one tree produces 32 fine melons, weighing from 10 to 30 lbs. each. The flesh is very firm and solid with few seeds, and makes beautiful, clear, transparent preserves of surprisingly fine flavor. All should plant this citron for market and home uses. It is a grand seller and will make you money. Pkt 5 cts.

Early Snowball Cauliflower.

The earliest, the surest header, the best and most profitable of all cauliflowers. No other variety compares with it. Snowball cauliflower is the standard everywhere for superb quality with all market and private gardeners. It is a very compact grower and is absolutely certain to form a good sized head when the conditions are right: good soil, sufficient moisture, and rapidly driving out the latter sorts for fall use. Cauliflowers easily raised, and every family should grow a supply. My seed is American grown and very choice. Packet 15 cts. 2 for 25 cts. 8 for $1.00.

WHITE CHINESE WINTER RADISH.

A magnificent, new Celestial variety, of enormous size and exquisite flavor. By far the best and most tender for late fall and winter use. The flesh is always crisp, mild and juicy—very refreshing. These giant Radishes grow from 10 to 15 inches long and 4 to 5 inches in diameter. The skin pure paper-white—very handsome. Flesh always crisp, mild and juicy. Easily grown and an immense yielder. Winter Radishes deserve more attention. They are a great luxury in winter, and always sell at good prices. Plant about July 1st, and pull late, and store in a cellar in boxes of moist earth. Large Pkt. 10 cts. 3 for 25 cts.

New Palmetto Asparagus—True Stock.

DECIDELY THE BEST IN THE WORLD.

This new variety is the finest ever cultivated. After you taste its flavor and compare it with all others, being much earlier—far better flavor and double the size. Indeed this variety is so superior that gardeners are throwing out their old sorts and planting with Palmetto. It is remarkably tender, rich and buttery when cooked. No other can compare.

Every family should have a supply of this very healthful and delicious vegetable.

My seed is pure and true. If well cared for will produce larger and finer asparagus in TWO years than other varieties at five. Beware of spurious seed. Don’t waste your expense and bother of buying plants when you can get such a quick and easy grower as this.

From the Editor of American Garden. TRULY A GIANT AS PARSNIPS! Quoted at the much of about 100,000 of Palmetto Asparagus exhibited by a Mrs. Gardener, rests anything ever heard of. It weighed 31 lbs. —the growth of only 3 days.

A. Whistler, Bakersfield, Cal. writes—Your Palmetto Asparagus and Pop Corn are both truly wonderful. I have planted your seeds several years and find them the best of all. Your packets are twice as large as any other, and you always send so many extra.

True Rocky Ford Musk melon.

The advent of this valuable variety has done more to popularize muskmelons than any other sort. Over a hundred acres of these celebrated melons have been shipped from Rocky Ford, Colo., realizing enormous profits. Unquestionably the best early Muskmelon.

An Amazing Yielder.

A Healthy Vigor- ous Grower.

Always Brings the Highest Price.

Enormous prices are paid for this variety to the exclusion of all others. Every market and home gardener should plant it largely. No other melon can bring you so much money. My seed is Pure and True, and selected with Extra Care. Beware of spurious seed—there is much of it offered. Pkt, 10 cts. 3 for 25 cts.

PLANT FLOWERS.

Plant flowers carefully, from house to the roadside.

To make every pauper grow with delight.

You can grow flowers for bouquets or entwine in your tresses, and beauty home from morning till night.

Mr. A. T. Cook. Dear Sir:—I write to acknowledge the receipt of your Post Cards. These are all very attractive, and I want to congratulate you on the work you are doing in the interest of Temperance.

When a man puts a thing of this kind in his life he always takes strong hold on immortality. He enters himself in some measure to a place in the company of those immortal dead who live again in minds made better by their presence. In looking over your cards I find distinct the feeling that would like to do some good in the same way, and may yet find occasion to work on sometimes in imitation of your good example.

With sincere good wishes,

Very truly yours,

C. C. GAINES.

White Plume, Self Blanching Celery.

The Earliest Variety.

This is the best of the so-called Self Blanching varieties, as it needs but little banking up. Its eating qualities are equal to the best of the older sorts being tender and crisp, solid, and of a pleasing nutty flavor, while its white feather-like foliage places it ahead of any other as an edible ornament. More largely grown than any other. If any have failed to grow fine celery, they should try this.

Pkt. 10 cts.

Extra Early Sugar Watermelon.

This remarkable new variety is not only the earliest of all—but will continue to bear abundantly the entire season. The quality is superb—every melon a good one. Will succeed and produce fine melons in every state—even in Canada. Packet 5 cts. 6 for 25c.

Every Boy in the U. S. should have a melon patch, and raise hundreds of big, sweet melons.

Healthful, Delicious, Asparagus.

Don't miss having an Asparagus bed. The True Palmetto is incomparably better than other sorts. It is earlier, double the size, finer quality, and a much stronger and healthy grower. Plant no other even as a gift. Asparagus is ALWAYS a money crop. It is extremely healthful, and will do you more good than all the quack medicine and drugs ever made. A well made bed will give you an abundance of fruits, legumes, and will be worth a hundred times the cost. Don't put it off. Plant a lot of seed. You can sell your surplus bulblets to your neighbors at an immense profit.

POWELL'S PROLIFIC POLE BEAN.

Thoroughly tested and proved to be the greatest Novelty ever introduced. Read the testimonials and judge for yourself.

WHY NOT

Read These?

A T. Cook, Dear Sir:—I received the Watches all right. They are grand. I showed them to my neighbors and gave them your Catalogue, and FIVE have already got up clubs and received watches. Every one is pleased. Your seeds are O. K. and your Prem. offers beat the band. Yours truly,
John Burns, O. B. Co. N. Y.

Miss E. North, Lithfield Co., Conn., writes:—I take much pleasure in getting up clubs. I found friends ready and willing to give me their orders. Your Pennsylvania grand, and seeds satisfactory in every way.

POWELL'S PROLIFIC POLE BEAN

This wonderful new variety, first introduced by me, originated in North Carolina—a few seeds were kindly sent me for trial by Prof. R. S. Powell, who writes:—"They are an extraordinary snap bean, surpassing anything ever seen in our section—bearing profusely, and continuing until frost; they are very tender and available all summer.

enough for a family."

I have found the bean a most rampant grower, one plant filling a pole with a mass of vines—densely loaded with luscious beans. I do not claim too much when I say they ARE more than twice as productive as any other variety in existence. They are a white, sweet, most a solid mass of pods from the bottom to top of the pole.

The handsome green pods average 8 or 9 beans to the pod, growing very uniform, about six inches apart, rich in taste, very thick meated, tender, rich and buttery; possess an exquisite flavor when cooked,—many calling it without exception the very best bean grown. It is a late variety and continues in bearing so long it might well be called "everbearing."

I pay you in packets.

Packet 10 cts. 3 for 25 cts.

BE SURE AND READ THE FOLLOWING.

Mr. A. T. Cook. Your Powell Pole Beans are WONDERFULLY prolific. I never saw anything to compare with them.

From the hills we sold 76 bushels

and had all we could eat. I verify the bills would have paid 75 cts. for each bushel. You cannot over-recommend this Pole Bean. NAKER. You should say in your catalog that an ordinary pole will not stand under the load of beans. We had to use a 10 ft. pole. This year will use heavy poles and trellis wire. A. J. Packard, SACO, ME.

S. E. Gwinn, Fayette Co. W. Va., writes:—From 6 vines of the Prolific Pole Bean we have produced:

5 Bushels, 139 bushels

of beans. Our beans were 3/4 lbs. each, the largest, and we can highly recommend them.

Mr. A. T. Cook. Your Powell beans were the grandest I ever saw.

From 5 Hills we picked from 6 Bushels each.

They continued green and bearing long after all other beans were dead. I was greatly pleased with all the seeds, and especially so with the extras.

World Famous Prizetaker Onion.

ITS MILDNESS OF FLAVOR AND TENDERNESS ARE UNEXCELLED EVEN BY THE BERMUDA VARIETIES.

This is without exception, the grandest variety of yellow globe onion grown for our American climate. It is the largest, handsomest, finest flavored, and in every way the best. It is admittedly the grandest of all varieties; samples have been grown to the enormous weight of

Over 5 Pounds Each.

With good culture it produces wonderful crops everywhere; one reports, "over 1500 bushels per acre."

Another says: "I grew 120 bushels on exactly one-sixth of an acre."

EXCELS IN YIELD.

EXCELS IN SIZE.

EXCELS IN QUALITY.

EXCELS IN BEAUTY.

The Prizetaker is easily grown, ripens up hard and firm, is a good keeper, and always brings a premium. It is certainly a wonder, and nothing short of an actual trial will convey an idea of its great value. Don't miss it. Remember, it is a grand, early, large onion, of immense value. 55c—Beware of cheap onion seed. Per Pkt. 10 cts. for 25c.

H. W. Bowles, Gray, Maine, writes:—Mr. A. T. Cook.

Your onion seed produced the best onions I ever saw.

W. M. Russell writes:—The extras you sent were most bountiful. The Prizetaker onions were up in 5 days.

WHY NOT encourage your boys and girls to grow plants for sale. This is an easy way to get a pocket of pin money, (except in getting up clubs for my seeds.) Let them plant a good lot of tomato, pepper, cabbage, celery, pepper, lettuce, cauliflower, flower, egg-plant, etc. Care for them well, and paint a sign and hang by the front gate—and they will soon be taking in money, and learning business faster than they ever did before in their life. Need this friendly hint, for it will pay you in more ways than one.
MAMMOTH MELTING SUGAR PEAS — Most Delicious of All.

Blythe named. The sweet, brittle, succulent pods are cooked same as string or snap beans — pods and peas eaten together. A "dish fit for a King." Excels all other Sugar Peas in size, tenderness and sweetness of pods, and delicious flavor. These luscious peas are too little known. Every one should grow them.

Deliciously Rich, Tender, Prodigiously Prolific.

They contain so much sugar, starch, and gluten, making them most nutritious. Height of vines 4 to 6 feet, bearing immense pods in the greatest profusion. Every garden should have a liberal supply of this superior vegetable. Peas are very scarce this year, but I have a splendid stock, as well as all other seeds. Remember I send EVERYTHING by mail PREPAID and guarantee safe arrival.

Per Packet 10 cts., 3 for 25 cts.

NEW EARLY WHITE VELVET OKRA.

Okra is a fashionable Southern vegetable, of the easiest growth, and matures first season even in the north. Pods are used when young and tender, are excellent for soups, stews, etc., and really delicious when pickled.

The White Velvet is best of all Okras, very early and distinct. The pods are round, smooth and handsome, much larger than any other.

Why not try Okra this year? You will surely like this splendid new variety. It is one of the good things no one should do without.

Packet 6 cts.

NEW EARLY TREE TOMATO.

I think this more nearly resembles a tree than any other. It stands up like a tree, with a stiff, vigorous, upright stalk — with fruit well up above the ground. Bears very abundant, fruit good size, smooth, bright red color and of superior flavor. A valuable, curious acquisition very ornamental and useful. I am sure all will be pleased with it. Pkt. 10c. COBEA VINE—Rare Climber.

Every one is very much delighted with this handsome, rapid growing annual climber. It attains the height of 20 to 30 feet in a season. Very pretty foliage with numerous bell shaped flowers of lovely hue. Particularly blooming, and perfectly hardy. It makes a surprising show of vines and flowers the first season.

A Gem of Beauty.

Surely no flower lover should skip this beautiful vine. Chico Mixed Colors. Packet 10 cts. Short and to the Point.

Saw "I lay all of the chores down and turn to your honest list. Your seeds ALWAYS please." Mrs. G. E. Williams, N. J.

True Ice Plant.

(SEEMERBRYANTHEUM CRYSTALLINUM.)

A handsome and unique annual plant, for hanging baskets, rock work, vases, and house plants; also fine for beds, edgings, etc. The leaves and stems are almost transparent, appear as though covered with icy crystals that look peculiarly brilliant and glistening in the sunlight. It is a plant of the easiest culture and that is always admired. It should be in every flower garden. The flowers are white. Cut-shows the attractive appearance of Ice Plant in Pot Culture. Packet 5 cents.

From Irene Dean in "Epitome." Oh, what beauties my Ice Plants were. They were entirely covered with "icy" crystals. I set each a 3 inch can; it grew as large as a big tin pan. Everyone that saw it was astonished. The flowers are very beautiful.

VERBENAS—Superfine Mixture.

Very few plants make such a gorgeous display during the season as the Verbena, or furnish more flowers for cutting. Unrivaled as a constant bloomer, brilliancy of flower, and sweet fragrance. They grow from seed the first season. For profusion of bloom—large blossoms, and variety of colors—my selected mixture cannot be excelled. I wish every one to grow these lovely flowers. Large Packet 10 cts. 3 for 25 cts. 12 for $1.00. 36 packets—with your choice of Premium Watch Coral Neck Chain, Solid Gold Fountain Pen, or Stereoscope and Views,—also $1.50 worth of Novelties and Extras—all prepaid for only $3.00. Please get up a club.

LONG STANDING SPINACH.

Spinach is a delicious vegetable either for spring or fall sowing. This variety is the gardener's favorite; it is a most attractive color with thick fleshy leaves of fine texture. Extremely hardy, and stands longest of all before going to seed. Packet 5 seeds.

COOK'S PERFECTION PARSNIP.

Rightly named, and without doubt the finest strain of Parsnip that can be produced. It is a wonderful improvement on the old sorts, and no one desiring the best should fail to grow it. The roots are very smooth and handsome; tender, sugary, fine-grained and of most excellent quality. Customers are unanimous in praising it.

This is truly a delicious vegetable, very fine stewed, fried, boiled, etc. All who do not like the old poorer sorts are recommended to try this.

It produces enormous crops; and the short, thick roots are easily gathered. It is without question the best for home use, market, exhibition, and purposes.

While this is essentially a table parsnip—it is also superior to all others for stock feeding owing to its great size and extraordinary sweetness.

Large packet, selected seed 100. 3 for 25c.

"Your Perfection Parsnips the best we ever had. Lester Thompson, White Bear, Minn. "We grow the finest tomatoes, cabbage and parsnips from your seed we ever had in our life. We sell Perfection Parsnips at 2 1/2 to 3 lbs. each." Win. H. Smith, Pa.

"They are $1.00 per pound. I purchased the very best seeds I ever planted. I grew 12 Bus. of Parsnips from 3 packets. Some were 22 inches long, and weighed 40 ounces." G. W. Henry, Hunt Co. Pa.

COLLARDS—TRUE GEORGIA.

Collards are used as a substitute for cabbage,—more especially in the South where it grows all winter. They are a form of cabbage that bears new leaves as the old ones are pulled off. They are tender and delicate when cooked for greens, and are esteemed highly. I sell a large quantity of the seed. Pkt. 5 cts.

New Japanese Climbing Cucumber.

A distinct new cucumber from Japan. The vines are extra strong and vigorous, and great climbers—producing a surprising amount of superior fruit on poles, trellises, etc. Three times the usual crop from a given area can be grown with this variety. They are large, meaty, and good for pickling and slicing. The vines and fruit being elevated do not suffer from wet weather and insects. They bears its fruit constantly throughout the season. I am sure all will be pleased with it. Pkt. 10c., 3 for 25c.

TEMPERANCE, PURITY, AND GODLIINESS.

Our old friend A. T. Cook, of Hyde Park, N. Y., sends out a nice catalog of zwieback, seeds, etc., and actually takes space on its crowded pages to plead for temperance, purity, and godliness. It is refreshing to find a seed catalog that not only refuses to sell tobacco seed, nor anything else that, in his opinion, will not be of substantial benefit to his customers, but uses its valuable space to advocate wholesome habits and edifying exhortations for righteousness are scattered all through its pages.

LITTLE CLEM SWEET ALYSSUM.
The Little Gem plants are very dwarf, and each one spreads so as to occupy an entire circular space 18 inches in diameter. They soon become one mass of white, remaining in full bloom from spring to fall. Annuals, and much the finest of all for winter lastingness, have been counted on one plant. Little Gem is sweetest and best of all flowers for single specimens, borders, hedges, etc., and might well have been called "Snow White Carpet Plant." Of the easiest culture. Do not forget this favorite, fragrant flower when you order. Very Choice Seed, only 5 cts. per pkt. 5 for 25 cts.

Be Sure and read the following from A. McQuiriton, Pansy Specialist of Preble Co., O.

"Mr. A. T. Cook—I have used the best Pansy Seed of many leading seedsmen, and yours clearly surpass them all in vigor of plants, size and number of blossoms, and great variety of color. Every one gives them with words of praise and recommendation. It is so easy to raise pansies from your seeds—they sell themselves."

From Miss Mary Nesbit, Pa.: "I had the loveliest of flower beds from your seed, and lots of people walked two miles to get a bouquet. Many city boarders came and purchased flowers. The Sweet peas, Sweet Williams, and Verbenas were especially beautiful. I cannot thank you enough for the extras. My Aunt and I have seen people get extras, but I invite all to get up Clubs.
